

Виртуальная библиотека

Информационно-ресурсный
центр

Генеральное Консульство США

Алматы, Казахстан

[Virtual Library:]

- Проект Госдепартамента США, анонсированный в августе 2010 г. на базе библиотеки Ральфа Банча.
- Запуск проекта - до конца 2010 г.
- Пользователи – Американские уголки и Информационно-ресурсные центры

[Концепция Virtual Library:]

- Общая информационная платформа для Американских уголков и Информационно-ресурсных центров
- Возможность интегрировать каталог ресурсов

[Коллекция Virtual Library:]

- E-books – электронные книги;
- Журнальные статьи из коммерческих баз данных;
- Электронные материалы, отобранные и лицензированные, документы в открытом доступе на America.gov, сайты правительства США и научные репозитории в открытом доступе.

Ключевой компонент - Voyager catalog

- интернет-интегрированная система управления библиотекой производства группы Ex Libris.
- предоставляет веб-интерфейс для каталога государственной библиотеки Иллинойса и 71 академических и научных библиотек, членов консорциума.
- Система также поддерживает функции управления фондами, в том числе, обращение, каталогизацию, приобретение, отчетность и т.д.

Адаптация к местным условиям

- По мере развертывания VL, каждый Уголок сможет адаптировать свои коллекции и каталог к «местному» интерфейсу.
- Большая часть контента на английском языке, однако, предполагается инкорпорировать переводные публикации с America.gov.

[Инструмент «discovery»]

- Для обеспечения успешного поиска будет использоваться инструмент «discovery», который позволяет отбирать информацию из всех ресурсов.
- Интерфейс будет похожим на Google.
- Инструмент – разработка Ex Libris (Primo).

Vanderbilt University's new library discovery site

Books, Media, and More | Databases by Subject

Everything Advanced Search

All items that contain my query words anywhere in the record

What is DiscoverLibrary?

DiscoverLibrary is a search and discovery tool for the library's vast collection of resources. A simple search box will bring back results from a number of different sources, including Acorn, the library's catalog, the Global Music Archive, the U.S. Congressional Serial Set, the Vanderbilt TV News Archive and many of our online article databases through Primo Central. Additionally, many more of the library's online article databases are searchable through DiscoverLibrary on the second tab.

On the **Databases by Subject** tab, you can choose a subject category to search a set of selected databases at the same time or select individual databases. Not all databases work in DiscoverLibrary, so you may need to consult our [full listing of databases](#).

Not sure which database to choose?
